Becoming a Member?

As a member of Finland's Family History Association you are involved in a project, which is building a new kind of research environment for genealogy. By becoming a member you can enjoy member benefits, such as digitized accounts of administrative provinces, court records and 100 to 125-year-old church records as well as of user-friendly indices.

Membership form can be found in our website
<http://www.sukuhistoria.fi>

In addition, we arrange

- Meetings for members
- Courses in the use of digitized material
- Training for digitizing and making indices

What is Finland's Family History Association?

Finland's Family History Association (FFHA) has been operating since 2004 to promote genealogical research by digitizing source material for use through the Internet.

Our website with over 5 million images of ca 500 parishes is based on the voluntary work carried out digitizing microfilmed sources, micro cards, and original material.

The website contains digitized pictures of church records older than 125 years. Picture archive of the association's website can be accessed at <http://www.sukuhistoria.fi>

At the member pages of our website there are also court records, accounts of administrative provinces and military records dating mainly for the period 1634-1808. Many of the source series are equipped with indices.
